Professional Summary

.Net Full Stack Developer with 10+ years of experience building scalable web applications using .NET, ASP.NET Core, React, Angular and SQL. Skilled in designing REST APIs, optimizing performance, and delivering production-ready software. Strong problem-solving ability and experience working in Agile environments.

Technical Skills

Frontend: React, Angular, JavaScript, TypeScript, HTML, CSS, Bootstrap

Backend: C#, .NET Core, ASP.NET Core, REST APIs, Microservices, Clean Architecture, JWT, SQL Server

Other: Git, CI/CD, Azure, Docker

Professional Experience

Freelance Senior .NET Core Developer - Remote

June 2020 – Present

- Architected and delivered scalable cloud-native distributed applications using C#, ASP.NET Core, REST APIs, Azure, SQL Server, Docker, and microservices in remote Agile teams.
- Automated CI/CD pipelines with Azure DevOps and implemented performance optimizations, improving deployment reliability and accelerating release cycles.

Senior Software Engineer - Spaculus Software

Apr 2019 – Jun 2020

- Led end-to-end development of a cloud-based financial platform supporting 500+ users, optimizing backend performance and Azure SQL systems to reduce response time by 25%.

Senior Software Engineer - Rigel Networks

Nov 2018 – Feb 2019

- Enhanced scalable backend services and built real-time Angular dashboards, reducing production downtime by 20% and improving reporting efficiency by 40%.

Software Engineer - Bharti Soft Tech Pvt. Ltd.

Feb 2017 – Sept 2018

- Delivered multiple Azure-hosted enterprise applications and improved Agile delivery workflows, increasing feature release speed by 25%.

.NET Developer - Itact Solutions

Dec 2015 – Feb 2017

- Developed secure hospital management systems for 200+ daily users, implementing role-based access controls and scalable backend architecture.

.NET Developer - Brelicon Technologies

Jan 2015 – Oct 2015

- Built and optimized a centralized placement platform managing 1,000+ records, improving backend data processing efficiency by 30%.

Key Projects

Human Resource Management System

ASP.NET Core, C#, React, Azure, SQL Server

- Enterprise HR platform automating payroll, attendance, recruitment, and performance workflows.

Financial Planning Platform

ASP.NET Core, Web API, Angular, Azure, SQL Server

- Cloud-based financial management system for investment tracking and reporting.

Quickscrum

ASP.NET Core, React, Microservices, Docker, Azure

- SaaS Agile project management platform enabling sprint planning and collaboration.

Education

Master of Computer Applications (MCA)

July 2015

Uka Tarsadia University, Gujarat
